**POWER  
EDGE**  
*Moments*

**POWER EDGE** is an essential component of the Charisa Munroe brand that empowers others to be confident, not discouraged, influential not manipulating, and steadfast not swayed in the power they possess. It inspires people to recognize their irrefutable power, edge out and let that power be manifested through their good works.

### Where it all began.....

The amount of power you possess determines how much destruction or production that power can cause. I keep waking up wanting to explode and produce all that God has for me to produce. I've come to realize that my power runs deep. My power is more than just being a woman; I am a "Munroe". Death brought LIFE to my name; a life that I was initially NOT ready for, but one that I now embrace because I realize I was prepared for it. It is a life that I have said yes to. And now I sit on the edge of the seat of life, ready and awaiting it all. I am willing to take the necessary risk and move forward even when I don't know fully understand what's before me. I would rather take a chance and fail than to not take a chance at all. With all the power that is within me, I know that I have what it takes to be effective, successful and great in life. What are you doing with your power? Do not be afraid to edge out on faith and take a chance. Power produces energy and energy produces life.
